

# 2-Day Workshop on Health Economic Evaluation Alongside Clinical Studies

**Date :** 28 — 29 August 2018  
(Tue — Wed)

**Venue :** Conrad Hotel,  
Singapore

**Contents** The two-day workshop will focus on key practical aspects for design, conduct and analysis of economic evaluation alongside clinical studies. Through lectures, case studies, group exercises and open discussion, attendees will gain a competent understanding of basics of health economic evaluation as well as appreciate the value of economic evaluation for healthcare decision making.

The teaching faculty includes lecturers with wide experience from industry, academic and government organizations. A professional trainer from TreeAge will provide 3 hours' webinar training. All participants also will receive complimentary training license of TreeAge Pro and "Certificate of Completion" from TreeAge Software.

**Target Audience** This workshop is aimed at those involved in clinical studies. Prior knowledge of health economic evaluation is welcome but not required.
